

**New sales channel setup for the products DEGALAN®,
DEGAROUTE® and DEGADUR®**

Röhm is a global provider of methacrylate chemistry with the clear strategic goal of becoming the leading methacrylate group. Under the brands DEGALAN®, DEGAROUTE® and DEGADUR® we manufacture binders for paints and heat-sealing applications as well as reactive resins for road markings and industrial flooring.

As one of the world's best partners in quality and reliability, we strive to offer our customers the best possible service. That is why we work with first-class distributors who, through local warehouses, highly developed logistics structures and qualified employees on site, serve individual customer needs in a timely and complete manner.

As of July 1, 2021, we will therefore continue to expand our distribution business in the EMEA region with our partners Azelis SA and BCD Chemie GmbH.
