Roehm America LLC

Supplier Notification Letter

Dear valued supplier,

This letter gives you some important updates on our new Röhm organization, including the formation of Roehm America LLC.

Earlier this year, Röhm GmbH, Roehm America's parent company, successfully completed the carve-out from Evonik Industries of its Methacrylate Verbund. Rohm was transferred to its new owner, Advent International, as an independent company. With revenues of EUR 1.9 billion (2018 figures) and innovative products, the company is one of the global market leaders in methacrylate chemicals. With the implementation of an innovative production technology for methyl methacrylate, Röhm GmbH is also targeting global technology leadership. The company has around 3,900 employees worldwide across 15 production sites in the USA, Germany, China, Taiwan, , Mexico, Russia, and South Africa.

Our global presence makes us a reliable partner for our suppliers and customers. For us, limitless partnership means developing the right solutions together with our customers and making their successes our own. The structure of an integrated production network gives us the flexibility we need to respond quickly and dependably whenever circumstances in our industrial markets and at our customers change. For this we build on decades of experience in the field of methacrylate chemistry. At the same time, we are further expanding our technology-based strengths in the integrated production network and are continuously developing new fields of application with our products.

Please find in the Appendix the Business information on Roehm America LLC and our regional affiliates.

We greatly appreciate your business and will keep you informed of further developments. If you have any comments, questions then please reach out to Gary S. Criscione, email address, gary.criscione@roehm.com

Sincerely yours,

ppa. Christopher Schindler
